# plexus Greens®

## Convenient, delicious nutrition for your family

Striving to get more fruits and vegetables into your diet should not leave you overwhelmed or worried about potential nutrient gaps. Plexus Greens is a satisfying, kid-friendly dietary supplement mix that helps you and your family get more of the plant-based phytonutrients you need to thrive.

# Your Life Isn't Average — Your Greens Mix Shouldn't Be Either

Plexus Greens is everything you love about a greens powder, plus fermented fruits and vegetables, insoluble oat fiber, and a powerful kombucha and green tea blend:

- Fermented fruits and vegetables Increase positive impact on overall health and gut support with enhanced antioxidant and nutritional properties\*
- **Insoluble oat fiber –** Help cleanse your digestive track and eliminate waste to support healthy digestive function\*
- Powerful kombucha and green tea This unique blend contains antioxidants that help protect your cells from free radical damage caused by lifestyle and environmental factors\*

## Don't Let a Busy Schedule Keep You from Better Health.

When you are constantly on the move, it can be difficult to find time to squeeze more fruits and vegetables into your diet. But eating a variety of colorful, plant-based foods can ensure your diet contains a range of health-promoting phytonutrients. Many quick options are filled with sugar and lack the nutrients you are looking for, which leaves you feeling sluggish and wanting more. You need a clean, convenient way to give your body the nutrition it craves so you can keep pace with your life.

# Be Nourished, Feel Healthy, and Support Your Gut.\*

We know you want to give yourself and your family the best health possible. That is why you need a trusted brand that understands who you are and can help you feel your best. Greens is a dynamic

superfood blend that you and your family can enjoy anywhere, anytime. Featuring a proprietary blend of phytonutrients and ingredients to support a balanced gut, Greens simplifies whole-body wellness so you and your family can enjoy more moments together.\*

## Less Worry. More Wellness.

What if getting a variety of phytonutrients from colorful fruits and vegetables into your diet did not have to be so taxing and time consuming? With Plexus Greens, better health is made to fit your schedule, and not the other way around. Enjoy Greens wherever you go and give your family more of the thriving Health and Happiness they deserve with these benefits and more:

- **Optimal nutrition** Support your daily health regimen with phytonutrients from a colorful variety of plant-based foods and enhanced antioxidants from a powerful kombucha and green tea blend.\*
- **Gut-balancing ingredients** Help support a balanced gut with fermented fruits and vegetables and insoluble oat fiber.\*
- On-the-go essentials Simplify your busy life with this delicious and satisfying way to get more greens in your diet and help close unwanted nutrient gaps.

## Did You Know?

- Each color in fruits and vegetables indicates an abundance of specific phytonutrients.<sup>1</sup>
- Eating an assortment of colorful plant-based foods can be an effective way to get a range of nutrients your body needs.<sup>1</sup>
- U.S. dietary guidelines recommend consuming 2.5 cups of vegetables and 2 cups of fruit per day.<sup>2</sup>
- Only an estimated 9% of adults eat the recommended amount of vegetables per day.<sup>3</sup>
- Only an estimated 12% of adults eat the recommended amount of fruit per day.<sup>3</sup>
- It's estimated that only 15% of children eat a high variety of fruits and vegetables.<sup>4</sup>
- Fermentation of fruits and vegetables often increases nutritional content.<sup>5</sup>
- Nutrients produced by food-fermenting bacteria help support a healthy gut microbiome community.<sup>6</sup>

## Frequently Asked Questions

#### What sets Plexus Greens® apart?

The popularity of greens powders continues to grow, but some products on the market undermine their beneficial ingredients with unnecessary sugars and excess calories. Plexus Greens enhances its benefits with gut-health-supporting ingredients like fermented fruits and vegetables and insoluble oat fiber, plus a powerful kombucha and green tea blend to help promote a balanced gut and optimal wellness for your family. Greens puts your family's whole-body needs first with a blend of phytonutrients from dark-green vegetables and colorful fruits, 3 grams of dietary fiber, no added sugar, and only 15 calories per serving.\*

#### Who should take Greens?

Because fruits and vegetables are pivotal to a healthy diet, Greens is ideal for everyone, especially those who want to supplement their daily diet, fill nutrient gaps, and simplify their wellness routine when they are on the go.

## Will I be able to feel a difference after drinking Greens?

Studies suggest that people with regular, higher intakes of fruits and vegetables feel better, both mentally and emotionally, without the post-sugar crash from typical fruit and vegetable juices that are loaded with added sugars. Refresh and nourish daily with the fruit and vegetable phytonutrients of Greens!\*

## Does Greens replace my daily servings of fruits and vegetables?

Greens does not act as a replacement for eating whole fruits and vegetables, but as a convenient and delicious way to get more phytonutrients from dark-green vegetables and colorful fruits in your diet. Only 1 out of 10 U.S. adults consumes the minimum daily recommended servings of fruits and vegetables, and Greens is a delicious, beneficial boost!

## Is Greens safe for the family?

Yes! Greens is safe to share with the family. Children ages 4 and up can drink one serving daily.

## Can I take Greens with other products?

Yes! Added nutrition and gut-health support complement any Plexus product and pair well with focused wellness plans like supporting your active lifestyle and weight management goals.\*

## Is there a limit to how many Greens servings I can take in a day?

Children ages 4 to 18 should not exceed one serving per day. Adults can enjoy Plexus Greens as needed.

## Can Greens be mixed with other Plexus® supplement drink mixes?

Yes! The delicious garden berry flavor of Greens is designed to taste great on its own or mixed with other Plexus dietary supplement mixes like Hydrate, Active, and Slim. It is also a great addition to your Lean shake.

#### Is it safe to take Greens while pregnant or breastfeeding?

If pregnant or nursing, consult with your physician prior to use.

## Is Greens gluten free, vegan, and non-GMO?

Yes! Greens is gluten free, vegan, and non-GMO.

#### Is there any caffeine in Greens?

There is no caffeine content in Greens.

**Other Ingredients:** Natural flavors, citric acid, spirulina extract (color), turmeric (color), and stevia leaf extract.

Gluten free, vegan, non-GMO No artificial colors\*\*, flavors, sweeteners, or preservatives

**NOTE:** Do not exceed one serving per day for children between 4 and 18 years of age. As with any dietary supplement, consult your physician prior to use if you are pregnant, nursing, have or suspect a medical condition, or are taking medication. Do not use if inner safety seal under the cap is broken or missing. **Keep out of reach of children. Use only as directed.** Store in a cool, dry place.

<sup>6</sup>7 grams per scoop is an average. Individual scooping technique may yield slightly more or slightly less than 7 grams. This product is filled by weight, not volume. Some settling of the contents may occur during transit and cannot be avoided.

**Apple cider vinegar** — Apple cider vinegar contains acetic acid and various bioactive compounds, including polyphenols and antioxidants. Vinegars have been used as traditional remedies in many cultures, and when consumed regularly, have been reported to provide beneficial health benefits, such as digestion support.\*

**Beet root** (*Beta vulgaris*) — Beet root is a red or purple root vegetable. Beet root is a natural source of nitrates, which can be beneficial as the body can convert it to nitric oxide. Nitric oxide plays a role in maintaining cardiovascular health.\*

**Blueberry (Vaccinium spp.)** — A blue fruit that contains anthocyanin pigments. Anthocyanins impart red, blue, and purple colors to fruits and some vegetables and have antioxidant properties. Dietary sources of anthocyanins, such as berries, are associated with cardiovascular health.\*

**Carrot root** (*Daucus carota*) — Carrot root is naturally rich in an impressive selection of bioactive phytochemicals, including carotenoids, anthocyanins, and other phenolic compounds that have antioxidant properties and other health benefits.\*

**Fermented fruits and vegetables** — Fermentation helps maintain and enhance antioxidant and nutritional capacity of fruits and vegetables. Fermented foods influence human well-being thanks to a number of properties, including making food more easily digestible — supporting gut health and nutrient assimilation.\*

**Ginger rhizome powder (**Zingiber officinale) — Ginger has been widely employed in Chinese, Ayurvedic, and Unani traditional/home remedies since antiquity. Ginger is commonly used to help calm a mildly upset stomach and has been linked to other health benefits.\*

**Green cabbage leaf (***Brassica oleracea L. var. Capitata***)** — Cabbage is a cruciferous vegetable in the same family as kale, broccoli, cauliflower, and brussels sprouts. Cruciferous vegetables contain phytonutrient antioxidants called glucosinolates, which are converted to their bioactive form, isothiocyanates.

**Kale** (*Brassica oleracea* var. *Acephala*) — Kale is a cruciferous vegetable popular in salads, cooked or sauteed, or baked into "chips." Cruciferous vegetables contain phytonutrient antioxidants called glucosinolates, which are converted to their bioactive form, isothiocyanates.

Kombucha powder — Kombucha is a fermented beverage traditionally obtained through the fermentation of sugared tea with symbiotic bacteria and osmophilic yeast. Literature suggests kombucha's health-promoting benefits are derived from the products of fermentation, including glucuronic acid, acetic acid, and polyphenolic antioxidants.\*

**Oat fiber** — Oat fiber is a dietary fiber source that helps support and maintain a healthy digestive system.\*

**Parsley leaf (***Petroselinum crispum***)** — Parsley contains phenolic compounds, including luteolin, apigenin, chrysin, and baicalein. These antioxidant compounds are associated with multiple health benefits.\*

**Spinach (***Spinacia oleracea***)** — In addition to its exceptional micronutrient content, spinach contains antioxidant carotenoids and polyphenols, which provide additional health benefits.\*
