

# Beauty Advanced Combo

Next-Level Skincare. Wow-Level Skin.

Feel confident at every age and every stage when you support your skin from the inside and out with the Joyōme Beauty Advanced Combo. Featuring the Joyōme Revitalizing Daily Cleanser, Illuminating Day Serum, Intensive Overnight Repair, and Multi-Action Collagen Complex, plus your choice of Slim Microbiome Activating or Slim Hunger Control, this combo goes beyond the basics to give new life to your skincare routine (and your skin!).\*

## Confidence That Gets Noticed

When you're uncomfortable in your skin, you feel self-conscious. And let's face it — with blemishes, dullness, dryness, and more, it's pretty easy to feel uncomfortable.

Healthy skin needs support from the inside and out. And if you want that confident glow (who doesn't?), then it's time to take your skincare routine to the next level.

Introducing the Joyōme Beauty Advanced Combo — the ultimate way to power up your beauty routine, uncover your natural radiance, and leave you with skin you love.

## How the Joyōme Beauty Advanced Combo Works

With 5 products at an exclusive Combo price, the Joyōme Beauty Advanced Combo is the wow-worthy routine your skin has been missing.

The **Joyōme Revitalizing Daily Cleanser** washes away dirt, oil, and makeup while also supporting a balanced and healthy skin microbiome. Cranberry extract gently exfoliates, and a natural prebiotic helps reduce moisture loss, leaving you with fresh-looking, more radiant skin.

Beautify your skin at every age and every stage with Joyōme's 2 powerful serums: the **Illuminating Day Serum**, plumps, hydrates, and visibly brightens the skin, and the **Intensive Overnight Repair**, delivers lush hydration and visibly reduces deep lines and wrinkles. Combined, this powerful duo noticeably addresses all the top signs of aging and restores a healthy balance to your skin microbiome.

Support your skin from within with the **Joyōme Multi-Action Collagen Complex**. With highly bioavailable Types I and III Collagen Peptides, plus Biotin, prebiotics, and antioxidant-rich superfoods, this Complex supports the skin structure, boosts your body's ability to produce collagen naturally, and reduces collagen breakdown. It all adds up to improved skin hydration, elasticity, and skin appearance.\*

Top off your daily beauty routine with your choice of **Slim Microbiome Activating** or **Slim Hunger Control**. Slim helps hydrate skin, lower skin pH levels, and increase the levels of free fatty acids in the skin. Sip your way to glowing skin!\*

Advanced beauty doesn't have to be complicated. Glow brighter, love your skin, and radiate with confidence — all with a beautifully simple routine that helps support skin from the inside and out.\*

## Joyōme® Beauty Advanced Combo Primary Benefits

### Joyōme Multi-Action Collagen Complex

- With long-term use, helps improve appearance of cellulite\*
- Helps strengthen the skin structure and dermal matrix\*
- Helps protect the skin's structural proteins\*
- Collagen peptides stimulate collagen synthesis\*
- Helps reduce collagen breakdown\*
- Reduces crow's feet, fine lines, and wrinkles\*
- Helps improve skin's appearance and minimize unwanted signs of aging\*
- Naturally derived Ceramides help hydrate and plump skin\*
- Supports healthy hair, skin, and nails\*
- Helps improve skin texture and reduce roughness\*
- Supports and replenishes skin's natural antioxidants\*

### Joyōme Revitalizing Daily Cleanser

- Gently removes dirt, oil, and makeup that could lead to clogged pores
- Helps restore and repair the skin's moisture barrier
- Leaves skin feeling soft, smooth, and hydrated
- Promotes cellular turnover to reveal fresh-looking, more radiant skin
- Conditions and primes the skin so that every product applied thereafter penetrates and works better

### Joyōme Age-Defying Serums

- Addresses all the top visible signs of aging, including the appearance of expression lines, crow's feet, frown lines, enlarged pores, dark circles, undereye puffiness, dullness, dryness, loss of elasticity, uneven texture, age spots, redness, and environmental damage
- Restores a healthy balance to your skin microbiome with a patent-pending Microbiome Balancing Complex that increases the beneficial microbe *S. epidermidis* and combats the unwanted microbe *S. aureus*

### Illuminating Day Serum

- Visibly reduces expression lines, like crow's feet and smile lines
- Plumps and hydrates, leaving skin feeling soft, smooth, and hydrated
- Reduces the appearance of enlarged pores
- Diminishes the appearance of dark circles and puffiness
- Improves the appearance of skin firmness and elasticity
- Enhances brightness and radiance
- Helps control oil for a luminous matte finish
- Quenches and rehydrates thirsty skin

### Intensive Overnight Repair

- Deep lines and wrinkles visibly reduced
- Tighter, firmer, and more lifted-looking skin
- Gently resurfaces for smoother, more radiant-looking skin
- Diminishes the appearance of age spots
- Reduces the appearance of redness for more even tone
- Helps replenish and defend skin's moisture barrier
- Lushly moisturizing

### Slim Microbiome Activating\*

- Helps hydrate skin, lower skin pH levels, and increase the levels of free fatty acids in the skin\*
- Clinically demonstrated to help you lose weight\*
- Promotes the growth of beneficial gut microbes\*
- Increases *Lactobacillus* up to 365 times and *Bifidobacterium* up to 290 times — contributing to overall health\*<sup>o</sup>
- Increases the metabolism-enhancing *Akkermansia* microbes up to 250 times\*<sup>o</sup>
- Supports healthy glucose metabolism\*
- Clinically studied XOS prebiotic
- Patent-pending formula

### Slim Hunger Control\*

- Helps hydrate skin, lower skin pH levels, and increase the levels of free fatty acids in the skin\*
- Clinically demonstrated to help you lose weight\*
- Helps reduce hunger\*
- Supports healthy glucose metabolism\*

\*The results of an in vitro human gut simulator study suggest that Slim's formula may have several beneficial effects. Further research, including research conducted in humans, is needed to confirm these preliminary findings.

## Joyōme® Beauty Advanced Combo Advantage

### Joyōme Multi-Action Collagen Complex

- Results in as little as 15 days<sup>^</sup>
- Highly bioavailable Types I and III Collagen Peptides
- Wild-Caught Marine and Grass-Fed Bovine Hydrolyzed Collagen
- Contains superfoods and superfruits
- Provides potent photoprotective antioxidants to help minimize visible skin damage caused by environmental factors\*
- Neutral flavor can be added to any beverage
- Contains FOS, the same prebiotic found in Joyōme age-defying serums and the same Ceramides found in the Illuminating Day Serum
- No artificial colors, flavors, sweeteners, or preservatives
- Dairy Free
- Gluten Free\*\*

### Joyōme Revitalizing Daily Cleanser

- Synergistically designed to work with Illuminating Day Serum and Intensive Overnight Repair to optimize results
- Gentle enough to use every day
- No harsh cleansers
- Refreshing Cranberry Mandarin scent
- Meets Joyōme consciously clean standards

### Joyōme Age-Defying Serums

- Includes the Illuminating Day Serum and Intensive Overnight Repair
- Eleven key ingredients at scientifically demonstrated levels to visibly correct the signs of aging
- Patent-pending Microbiome Balancing Complex to defend against age-accelerating environmental aggressors
- First-to-market HydraLipid Delivery System<sup>††</sup> that enhances the absorption of key ingredients
- Formulated without over 1,300 ingredients, including GMOs, BHA, BHT, Ethanolamines, Hydroquinone, Parabens, Phthalates, Propylene Glycol, Sulfates, Synthetic Fragrances, and others on our Absolutely Not List

### Slim Microbiome Activating\*

- Delicious Raspberry, Lemon, Watermelon flavor
- No artificial colors, flavors, sweeteners, or preservatives
- 30 convenient single-serve packets
- Only 5 calories
- Gluten Free
- Vegan
- Non-GMO

### Slim Hunger Control\*

- Delicious Blood Orange, Lemon, Lime flavor
- No artificial colors, flavors, sweeteners, or preservatives
- Only 15 calories
- 30 convenient single-serve packets
- Gluten Free
- Vegetarian
- Non-GMO

<sup>^</sup>Individual results will vary

<sup>\*\*</sup>The wheat has been processed to allow this Dietary Supplement to meet the Food and Drug Administration (FDA) requirements for gluten free.

<sup>††</sup>Protected by French Patent No. FR 2972924. The HydraLipid delivery system found in Joyome is the first naturally-derived, phospholipid-based gelling-emulsifying agent on the market.

## Frequently Asked Questions

### When is the best time to use the Joyōme® Skincare Regimen?

You should use the Joyōme regimen every day. Every morning cleanse your face with the Revitalizing Daily Cleanser to remove impurities, dead skin cells, and excess oils the skin may secrete overnight. Then apply Illuminating Day Serum to enhance your skin's natural radiance. Take 2 scoops of Multi-Action Collagen Complex with your favorite beverage (we suggest Slim) to help support, boost and maintain collagen production. Before going to bed, cleanse again to ensure surface contaminants are removed. Then apply Intensive Overnight Repair, a lushly moisturizing serum that works while you sleep to visibly reduce deep lines and wrinkles and helps replenish and protect your skin's moisture barrier.\*

### What sets Joyōme apart from other skincare regimens?

Joyōme takes the complexity out of your daily routine. Suitable for all skin types, Joyōme helps support your skin's natural radiance from both the inside and out. In just a few minutes morning and night, you can help combat the visible signs of aging and defend your youthful glow.

### Does Joyōme contain preservatives?

Joyōme contains proven, safe, broad-spectrum cosmetic preservatives such as phenoxyethanol to ensure the shelf life and stability of the products, and which are accepted by the European Union safety standards. Joyōme's scientific board of advisors believe these preservatives are safe and not harmful to the skin microbiome.

### Are Joyōme products natural?

In many cases, natural ingredients can be made safer and more effective through scientific adjustments or additional processing. Many cosmetic ingredients often require processing to ensure bioavailability, safety, purity and potency. The ingredients in Plexus® products come from a variety of sources. Some are derived from plants with minimal processing, while others are scientifically-derived. Regardless of the source, we select ingredients in the form proven to be effective, healthy, safe, pure, and free of contaminants.

### Are Joyōme products organic?

Many of our ingredients are sourced from nature. All are non-GMO but are not verified to be organic. Organic certification does not necessarily guarantee a level of consistency or better quality. In addition, the quality of certain organic ingredients may be questionable and not aligned with Plexus' rigorous standards. We use botanical ingredients as well as strategically selected, high-performance, clinically-tested ingredients demonstrated to provide real results.

### Is Joyōme gluten-free?

Yes, Joyōme is gluten-free.

### Is Joyōme vegan?

Joyōme does not contain any animal-derived ingredients

### Has Joyōme been tested on animals?

Joyōme is cruelty-free, meaning our formulas are not tested on animals.

### Is Joyōme formulated to help with Eczema, acne, rosacea, or other skin conditions?

Joyōme is a premium, anti-aging skincare line designed to address the visible signs of aging. It is not intended to treat, cure or prevent any medical skin condition.

## Ingredients Glossary

At Joyōme®, we believe that everyone deserves great skincare products that are powerful without compromising safety. We've spent countless hours reviewing ingredients, carefully choosing ones that are effective, and meet our stringent safety requirements. Joyōme has made a Consciously Clean Promise and is strongly committed to the safety and efficacy of its products. We started by following the ultra-stringent guidelines of the European Union which have banned more than 1,300 ingredients from skin care products. We then went further by identifying additional ingredients deemed untrustworthy. Joyōme is free from GMO's, parabens, mineral oils, phthalates, gluten, propylene glycol, formaldehyde, sulfates, BHA, BHT, and synthetic fragrances just to name a few. Below is a list of some of the ingredients that exceed our uncompromising standards and make Joyōme work.

### Joyōme Serums Primary Ingredients

**Argireline Peptide** – You've probably heard of amino acids and may know that amino acids are the building blocks of proteins, like muscle. But amino acids can combine in different ways to create peptides. Peptides are like the middle step between an amino acid and a protein. Argireline is a special hexapeptide that consists of six amino acids (hexa = six). Argireline can help reduce the appearance of wrinkle depth on the face caused by repetitive expressions, especially in the forehead and around the eyes.

**Azelaic Acid (Azeloglycina)** – Found in grains, Azelaic Acid is also produced naturally by the skin microbiome. It visibly lightens the skin while improving the evenness of skin texture and reducing the appearance of visible redness.

**Bakuchiol** – A botanical ingredient derived from seeds of the babchi plant, traditionally used to purify the skin. It is a retinol alternative that helps reduce the look of dark spots and reduce the appearance of skin blemishes.

**Beta Glucan** – Helps promote skin hydration, soothe irritated skin and reduce the adhesion of unwanted *S. aureus* bacteria. It is a key ingredient in Joyōme's Microbiome Balancing Complex.

**Bisabolol** – The primary constituent of chamomile essential oil. It helps condition and nourish the skin.

**Camu Camu Extract** – A superberry found in the Amazon rainforest, known for its brightening and skin calming effects. It is loaded with carotenoids (antioxidants), vitamins and minerals that fight environmental age accelerators and help support a strong skin barrier.

**Ceramides (Glycosphingolipids, glycolipids)** – Ceramides are lipids, or fatty acids, that occur naturally in human skin, and are clinically proven to help reduce the appearance of wrinkles, help reduce skin roughness, and boost hydration.

**Cichorium Intybus (Chicory) Root Oligosaccharides** – You may have heard of chicory root, which many people roast and use as a coffee alternative. The fiber from chicory, inulin, is also commonly used in dietary supplements and food products. This component of chicory root is a food grade prebiotic known to increase beneficial bacteria found on the skin, guarding barrier function. It is a key ingredient in Joyōme's Microbiome Balancing Complex.

**Cranberry Fruit Extract** – A powerful antioxidant that guards our skin from environmental aggressors. Cranberry fruit extract is one of the primary ingredients in Joyōme's Microbiome Balancing Complex.

**3,4-Dihydroxybenzoic Acid (Protocatechuic Acid)** – A phenolic acid naturally occurring in many fruits, vegetables and herbs. It is well-known as an antioxidant that helps to fight environmental aging accelerators and is a key ingredient of Joyōme's Microbiome Balancing Complex.

**Eyeseryl Peptide** – A peptide is comprised of amino acids and joins with other peptides to form proteins. Eyeseryl is a tetrapeptide comprised of four amino acids (tetra = four) with a proven efficacy in reducing the appearance of puffy eyebags and under-eye dark circles.

**Hyaluronic Acid** – Hyaluronic acid rehydrates your skin by taking up water evaporating from the skin. Joyōme uses a very unique form of hyaluronic acid that has been designed to be more bioavailable, deeply hydrating and visibly plumps the skin.

## Ingredients Glossary

Hyaluronic acid rehydrates the epidermis by absorbing moisture deep into the skin, thus creating a plumping and smoothing effect that reduces the appearance of lines and wrinkles. The hyaluronic acid molecule can hold up to 1,000 times its weight in water.

**Lysolecithin** – A natural phospholipid (plant-based fat) that is highly biomimetic (compatible) with the skin's lipids, making it an excellent delivery system for key ingredients, as well as a natural emulsifier. Phospholipids support the skin barrier, decrease water loss and increase hydration. Lysolecithin is a key ingredient in Joyōme's HydraLipid Delivery System.

**Lactic Acid** – An alpha hydroxy acid (AHA) that helps exfoliate dead cells on the surface of the skin, leading to more radiant, smooth, glowing skin and a reduction in the appearance of fine lines and wrinkles. Lactic Acid is a popular topical ingredient in skin care products, but it can also be produced by good bacteria in your facial skin microbiome.

**Matrixyl Peptide (Palmitoyl Tripeptide)** – A powerful protein peptide that helps smooth the appearance of wrinkles and improves tone and elasticity of the skin. Peptides are amino acids that link together in different combinations to form proteins in your body.

**Niacinamide** – A high potency form of Vitamin B3 that supports firm looking skin and reduces the appearance of hyperpigmentation, giving your skin a youthful glow.

**Red Clover Extract** – A plant-derived ingredient designed to help minimize the appearance of pores.

**Retinoid Ester (Hydroxypinacolone Retinoate)** – Related to vitamin A, retinol is a go-to key ingredient for many anti-aging products because of its fast-acting ability to reduce the appearance of wrinkles. Unfortunately, low-quality retinols can also cause irritation. Joyōme® Intensive Overnight Repair uses a 2% concentration of a patented retinoid ester that is more bioavailable, less irritating and works faster than traditional Retinol. Clinical studies using the amount of the retinol ester found in Joyōme showed on average a 60% reduction in the appearance of visible wrinkles in 2 weeks, as well as a reduction in visible age spots and surface roughness.

**Rosa Rubiginosa (Rosehip) Seed Oil** – A rejuvenating oil derived from the fruit and seed of the Rosa Canina plant in the Chilean Andes mountains. Due to its high content of essential fatty acids, it is used to restore the appearance of elasticity, soften the look of wrinkles, and help reduce the appearance of blemishes.

### Joyōme Cleanser Key Ingredients

**Betaine** – A choline-derived compound naturally found in our bodies. The source of this Betaine is extracted from sugar beets. It functions as an osmolyte protecting certain functional ingredients from water and as a moisturizing agent.

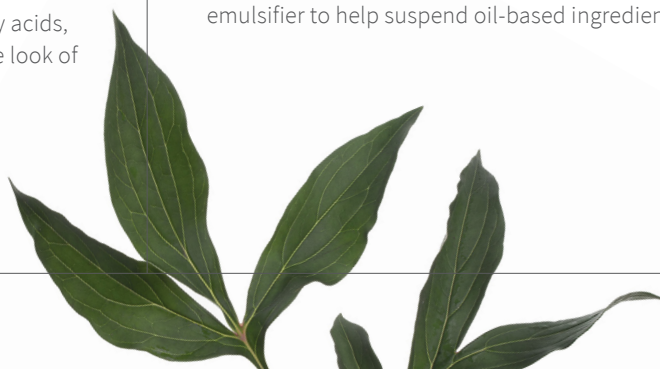

**Eleutherococcus Senticosus (Siberian Ginseng) Root Extract** – A source of plant-based antioxidants, helping promote skin cell turnover.

**Hydrolyzed Jojoba Esters** – An emollient agent that helps enhance skin moisturization. Jojoba Esters also function as prebiotics for skin microbial commensals.

**Inonotus Obliquus Extract** – More commonly known as chaga, it provides antioxidant protection and is a source of phytonutrient triterpenes.

**Leuconostoc/Radish Root Ferment Filtrate** – A postbiotic ferment of the Leuconostoc species of lactic acid bacteria from radishes. Postbiotic ferments help promote the growth of healthy commensal skin bacteria.

**Phospholipids** – Charged lipids naturally found in the cell membrane of all living things. Phospholipids are used as an emulsifier to help suspend oil-based ingredients.

## Ingredients Glossary

**Rhaponticum Carthamoides (Maral) Root Extract** – A flowering plant native to Eastern Europe. Its roots are a rich source of antioxidants and sesquiterpenes.

**Rhodiola Rosea Extract** – Also known as golden root, Rhodiola is a flowering plant that grows in high elevations of Eastern and Northern Europe. It is a source of antioxidants uniquely abundant in salidroside and rosavin.

**Saccharide Isomerate** – A carbohydrate complex that helps to attract water, boosting skin hydration and helping to improve skin moisture retention.

**Selaginella Lepidophylla Extract** – A desert plant native to the Chihuahuan Desert in North American, also called stone flower. It is a source of antioxidant polyphenol bioflavonoids.

**Sphingolipids** – A special class of lipids that include ceramides which are one of the most abundant types of lipid in the skin. Sphingolipids are important for moisture retention function.

**Vaccinium Macrocarpon (Cranberry) Fruit Extract** – A cranberry fruit extract rich in natural protease enzymes that helps with skin exfoliation.

### Multi-Action Collagen Complex

**Wheat Seed Extract\*\*** – A lipid extract from the Wheat Seed that is rich in plant ceramides. Ceramides are a special class of waxy membrane lipids and are the most abundant lipid in the outer layers of the skin. They are integral to the barrier integrity of the skin and its moisture retaining capabilities. Aging is associated with skin drying and a corresponding depletion of ceramide content in the skin. Oral ceramide ingestion can help increase skin ceramide content.\*

**Lucuma Fruit Powder (*Pouteria lucuma*)** – Known as the “Gold of the Incas,” or more commonly just as Lucuma, it is a subtropical fruit native to the Andean mountain region of South America and is a common dietary staple in its native region. Lucuma possesses high antioxidant capacity due to its high concentration of triterpenes, flavonoids, and carotenes.\*

**Pomegranate Fruit Extract (*Punica granatum*)** – Pomegranate is a fruit bearing shrub native to the middle east and cultivated widely throughout the Mediterranean. The fruit is nutrient dense and rich in antioxidant phytonutrients, particularly anthocyanins.\*

**Asparagus Shoot (*Asparagus officinales*)** – A small shrub plant with one main stalk and numerous feathery leaves, Asparagus is most commonly harvested while the stalks are still small and tender. It is a rich source of antioxidant flavonoids and saponins that are responsible for its health benefits.\*

**Okra Pod (*Abelmoschus esculentus*)** – A nutrient-rich vegetable that grows widely across tropical and subtropical regions. The seed pods are consumed and known for their viscous fiber content that gives it a slimy texture. It is naturally rich in various phytonutrients, including flavonoids, isoquercitrin, and quercetin.

**Coffee Fruit Extract (*Coffea arabica*)** – The fruit, called the Coffee Cherry, is often discarded as a byproduct of coffee production, but is a rich source of antioxidant phytonutrients like chlorogenic, protocatechuic, and gallic acids.\*

**Quercetin (*Sophora japonica*)** – An antioxidant flavonol from Japanese sophora flower.\*

**Acerola Fruit Juice (*Malpighi glabra*)** – A tropical shrub with bright red cherry-like fruits. Its fruit is abundant in antioxidants like Vitamin C, anthocyanins, flavonoids, and phenols.\*

**Camu-Camu Fruit Juice (*Myrciaria dubia*)** – A tropical fruit native to the Amazon, rich in antioxidants due to its high content of Vitamin C and polyphenols.\*

**Acai Palm Fruit (*Euterpe oleracea mart*)** – A palm plant native to the Amazon that bears large drooping clusters of its dark blue fruits that are rich in anthocyanins and polyphenol antioxidants.\*

\*Protected by French Patent No. FR 2972924. The HydraLipid delivery system found in Joyome is the first naturally-derived, phospholipid-based gelling-emulsifying agent on the market.

\*\*The wheat has been processed to allow this Dietary Supplement to meet the Food and Drug Administration (FDA) requirements for gluten free.

\*These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure, or prevent any disease.

## Ingredients Glossary

**Mangosteen Fruit (*Garcinia mangostana*)** – A tropical fruit native to Southeast Asia with a deep purple skin, white flesh, and unique flavor. It is a rich source of uncommon phytonutrients known as xanthonoids.

**Silicon Dioxide** – Moisture controlling agent that improves flow of ingredients during packaging. Maltodextrin: Maltodextrin is used as a carrier or processing aid in specific ingredients.

**Natural Flavors** – Natural flavors are naturally occurring compounds that contribute to the unique flavor profiles found in foods. These various flavors are taken from essential oils, resins, essences or extracts.

### Slim Microbiome Activating\*

**Xylooligosaccharides** – XOS is a clinically demonstrated prebiotic that feeds beneficial microbes.\*

**Green Coffee Bean Extract** – Can help decrease the absorption of sugars and thereby supports a healthy glucose metabolism.\*

**Chromium Polynicotinate** – An essential trace mineral that transports glucose into cells.\*

### Slim Hunger Control\*

**Polydextrose** – A calorie smart soluble fiber which has been shown to promote satiety and help individuals feel fuller longer.\*

**Green Coffee Bean Extract** – Can help decrease the absorption of sugars and thereby supports a healthy glucose metabolism.\*

**Chromium Polynicotinate** – An essential trace mineral that transports glucose into cells.\*
