

Damage Control

SOOTHING TREATMENT MASK

Designed to counter the visible effects of daily stress, this mask helps your complexion recover, recharge, and rebound.

Reveal a more radiant, more balanced, and more confident you.

Not just luxury – necessity.

Your skin faces constant stress, from pollution and UV exposure to lack of sleep and daily tension. Over time, these stressors can leave you looking dull, puffy, and unbalanced. This soothing sheet mask infuses skin with deep hydration, calming botanicals, and microbiome-supporting actives that help restore harmony and radiance.

Formulated for weekly use, Damage Control will reveal a more radiant, balanced, and confident you.

Primary Benefits

- Provides a refreshing cooling sensation that quickly calms skin and visibly reduces puffiness for a more sculpted, toned appearance
- Noticeably reduces redness and temporarily minimizes the look of pronounced pores for a more even, radiant complexion
- Soothes dry, irritated skin and promotes a healthy-looking, balanced appearance
- Infuses skin with long-lasting moisture to restore suppleness and smooth texture
- Recharges tired, stressed skin for a visibly refreshed, energized look
- Fortifies skin's natural defenses against pollution and environmental stressors
- Supports a balanced skin microbiome with prebiotic-powered care
- Delivers deep hydration that reinforces skin barrier function and resilience
- Complements the Plexus® Skin Health System's results to promote overall skin health and youthful longevity through restorative bite-sized treatments

Primary Features

- Contains calming botanicals including aloe vera, chamomile, and cucumber
- Bioactives like caffeine, vitamin B5, and glycerin work together to depuff, hydrate, and restore balance
- Microbiome-supporting ingredients inulin and sphingomonas ferment extract nourish beneficial skin bacteria and reinforce the skin barrier for a balanced, resilient complexion
- Antioxidant-rich botanicals, including passionflower and cucumber, support skin defense against environmental stressors
- Designed for weekly or occasional use as a 15-minute at-home treatment
- Biodegradable sea grape fiber gel delivers the formula in a satisfyingly soft, flexible mask that adheres to the skin without pinching and removes easily without pulling — a clean, better-for-you alternative to conventional mask materials
- Kind-to-Biome certified formula undergoes rigorous testing to maintain healthy skin microbiome balance — supporting beneficial bacteria, discouraging problematic microbes, and preserving essential microbial diversity
- Features a lightweight, breathable, pore-friendly formula designed to refresh the skin without feeling heavy
- Cruelty-free*, vegan, non-GMO, hypoallergenic, and free from fragrances, harsh surfactants, phthalates, parabens, and other potentially irritating ingredients, including SLS and SLES

*Finished product not tested on animals.

Frequently Asked Questions

How do I apply the sheet mask?

Start with freshly cleansed skin. Unfold the mask and smooth it onto your face, aligning the cut-outs with your eyes and mouth, and relax for 15 minutes as your skin soaks in the serum.

Should I wash my face after removing the mask?

Nope! Gently massage the remaining serum into your skin and follow with moisturizer.

Is Damage Control suitable for all skin types?

Yes! Our formulations are designed to be gentle, effective, and non-irritating for all skin types.

How should I store Damage Control?

Keep in a cool, dry place away from direct sunlight to maintain potency and texture. For the most soothing experience, we recommend storing it in your refrigerator.

Does Damage Control contain fragrance?

No, it does not.

Can I use Damage Control with my other Plexus® products?

Yes! Damage Control is designed to work seamlessly with the rest of the Plexus Skin Health System products, as well as our Skin Health Line add-ons, and is compatible with all Plexus products.

Can I use other skincare products with Damage Control?

Yes, but keep in mind that Damage Control is carefully formulated to enhance the benefits of the Plexus Skin Health System. Using it alongside certain other products or ingredients may limit its full effectiveness.

Can I use Damage Control with my medication?

Damage Control is formulated with gentle, skin-loving ingredients — but it's always a good idea to speak with your healthcare provider or pharmacist before introducing any new skincare products. They can help ensure that the products are a good fit for your unique needs and any treatments you're currently using.

Is Damage Control safe for pregnant or nursing women?

As with any new skincare product, we recommend consulting with your healthcare provider before starting use during pregnancy or while nursing. They can provide personalized advice to ensure the products are safe for you and your baby.

INGREDIENT GLOSSARY

Damage Control Soothing Treatment Mask

1,2-Hexanediol: A multifunctional ingredient that acts as a humectant and preservative booster, helping skin stay hydrated while supporting product stability.

Aloe vera (aloe barbadensis leaf juice): A plant-based humectant that helps hydrate, soften, and condition the skin. Known for its natural cooling effect and gentle astringent qualities, aloe vera supports moisture balance, enhances comfort, and works to soothe and calm dry, irritated skin while also helping to temporarily reduce the appearance of enlarged pores.

Butylene Glycol: A versatile ingredient that draws moisture into the skin, helping it feel hydrated and comfortable. It also enhances the delivery of active ingredients, improves spreadability, and contributes to a smooth, silky finish. Its mild antimicrobial properties support overall product stability.

Caffeine: A multi-tasking ingredient that visibly reduces puffiness and under-eye bags, brightens the look of skin, and helps diminish redness. Caffeine also works to improve circulation, provides antioxidant protection, and contributes to a firmer, more energized looking complexion.

Chamomile (anthem. nobilis flower extract): A natural botanical extract derived from the flowers of the Anthem. nobilis plant, chamomile is rich in flavonoids and known for its ability to calm, soothe, and reduce the appearance of redness in irritated skin.

Citric Acid: Cosmetic grade, non-GMO, pH adjuster and chelating agent used to stabilize formulas. It is used to ensure products are safe and effective.

Cucumber extract (cucumis sativus fruit extract): Known for its high-water content and naturally occurring antioxidants, cucumber extract provides immediate cooling, soothing, and light hydration. It helps calm the skin, supports elasticity, and reduces the look of puffiness.

Glycerin: A humectant that mimics the skin's natural moisturizing factor, by drawing water into the skin and helping prevent moisture loss. Glycerin also supports barrier function and leaves the skin feeling soft and supple.

Hydrogenated Ethylhexyl Olivat: A lightweight emollient derived from olive oil that helps soften and smooth the skin. It forms a protective barrier to lock in moisture, leaving skin feeling nourished, silky, and supple without a greasy residue.

Hydrogenated Olive Oil Unsaponifiables: A rich, plant-derived emollient that helps restore and strengthen the skin barrier. It deeply nourishes and conditions the skin, leaving it feeling soft, smooth, and resilient while supporting long-lasting hydration.

INGREDIENT GLOSSARY

Damage Control Soothing Treatment Mask

Hydroxyacetophenone: An antioxidant that supports the effectiveness of preservative systems in skincare. It is also valued for its soothing properties and acts as a humectant to help hydrate the skin.

Inulin: A prebiotic fiber that supports the skin's microbiome, helping to maintain a balanced and healthy surface. Inulin also aids in hydration by attracting and retaining moisture, leaving skin feeling soft, smooth, and resilient.

Limnanthes Alba (Meadowfoam) Seed Oil: A lightweight, nutrient-rich oil that helps lock in moisture and protect the skin's natural barrier. Meadowfoam seed oil leaves skin feeling soft, smooth, and radiant while providing antioxidant support to maintain a healthy-looking complexion.

Microbiome Balance Blend: Sphingomonas ferment extract, a microbial polysaccharide, helps support the skin barrier, visibly enhance firmness, and promotes a balanced microbiome. Paired with inulin, a plant-derived prebiotic fiber that attracts moisture and nourishes beneficial skin flora, this duo works together to help your complexion stay resilient and healthy.

Passiflora edulis fruit extract: Derived from the passionflower, a woody vine with distinctive purple flowers, this extract is valued for its antioxidant properties. It helps moisturize the skin by reducing water loss, leaving skin refreshed and supple.

Polyglyceryl-6 Behenate: A gentle, plant-derived emulsifier that helps blend oil and water for a smooth, stable formulation.

Polyglyceryl-6 Stearate: A gentle, plant-derived emulsifier that helps blend oils and water, leaving skin smooth and lightweight.

Potassium Sorbate: A salt of sorbic acid used as a preservative to prevent microbial growth. It extends shelf life and supports product stability.

Propanediol: A plant-derived, multi-functional ingredient used as a humectant to lock in moisture. It also acts as a preservative booster and contributes to product viscosity, improving texture and spreadability.

Simmondsia Chinensis (Jojoba) Seed Oil: A nourishing oil that closely mimics the skin's natural sebum, providing hydration, softness, and a smooth, non-greasy feel.

Sodium Benzoate: A widely used, gentle preservative that helps keep skincare and cosmetic products fresh and stable. It works by preventing the growth of microbes like bacteria and mold, particularly in waterbased formulations.

Sodium Hyaluronate: Also called hyaluronic acid, this naturally occurring compound attracts and retains water in the skin, helping to plump and improve overall skin texture.

Vitamin B5 (Panthenol): This skin-conditioning agent acts as both a humectant and emollient—attracting and retaining moisture while softening and soothing the skin. It helps strengthen the skin barrier, provides nourishing and restorative benefits, and visibly reduces irritation and dryness.

Xanthan Gum: A stabilizer that functions primarily as a thickener and emulsifier, helping to create a uniform and stable texture in cosmetic formulations.

INGREDIENTS LIST

Water/Aqua/Eau, Aloe Barbadensis Leaf Juice, Propanediol, Glycerin, Caffeine, Inulin, Panthenol, Sodium Hyaluronate, Sphingomonas Ferment Extract, Anthemis Nobilis Flower Extract, Passiflora Edulis Fruit Extract, Cucumis Sativus (Cucumber) Fruit Extract, Simmondsia Chinensis (Jojoba) Seed Oil, Limnanthes Alba (Meadowfoam) Seed Oil, Hydrogenated Olive Oil Unsaponifiables, Xanthan Gum, 1,2-Hexanediol, Hydroxyacetophenone, Hydrogenated Ethylhexyl Olivatate, Butylene Glycol, Polyglyceryl-6 Stearate, Polyglyceryl-6 Behenate, Citric Acid, Potassium Sorbate, Sodium Benzoate.
